[AACN Core Curriculum for Progressive and Critical Care Nursing 8th Edition](#)

The AACN Core Curriculum for Progressive and Critical Care Nursing, 8th Edition, authored by the esteemed American Association of Critical-Care Nurses (AACN), is an essential resource for nursing professionals seeking to deepen their knowledge and skills in critical care and progressive nursing. Published by Elsevier, this comprehensive guide is meticulously updated to reflect the latest evidence-based practices and advancements in nursing care for critically ill patients. The curriculum covers a broad spectrum of topics, including hemodynamic monitoring, mechanical ventilation, cardiovascular care, and ethical considerations in critical care settings, ensuring that readers are equipped with the necessary tools to provide high-quality patient care. With contributions from leading experts in the field, this edition emphasizes the importance of interdisciplinary collaboration and the integration of technology in critical care nursing. The book not only serves as an invaluable educational resource for nursing students and practicing RNs but also as a reference for advanced practice nurses and educators aiming to stay abreast of best practices in the challenging landscape of critical care. Its thorough approach and accessible writing style make it a must-have for anyone dedicated to excelling in the demanding field of progressive and critical care nursing. The ISBN for this important text is 978-0323357624, making it easy to find and add to your professional library. Empower yourself with the latest knowledge and skills to enhance your practice and transform patient outcomes with the AACN Core Curriculum for Progressive and Critical Care Nursing, 8th Edition.
