[Hair Transplant 360 for Physicians 2nd Edition](#)

Hair Transplant 360 for Physicians, 2nd Edition, authored by Dr. David H. H. Wong and published by MedOne Publishing, provides an essential and comprehensive guide for medical professionals delving into the intricacies of hair restoration. This updated edition combines the latest advancements in the field with in-depth knowledge honed by Dr. Wong's extensive clinical experience, offering physicians a well-rounded perspective on hair transplant techniques. The book encompasses a variety of topics, including scalp anatomy, donor area management, and different transplant methods such as FUE and FUT, ensuring a thorough understanding of both the theoretical and practical aspects of hair transplantation. With its clear, concise language and detailed illustrations, this edition serves as a valuable resource for both novices and seasoned practitioners. The ISBN for this essential text is 978-0995025833, making it easy to locate and acquire. Readers will appreciate the focus on evidence-based practices and insights into patient selection, pre-operative planning, and post-operative care, all of which are crucial for achieving optimal results. Dr. Wong emphasizes the importance of artistry and technique, guiding readers in developing their skills to enhance patient satisfaction and outcomes. Whether you are starting your hair restoration practice or looking to refine your techniques, Hair Transplant 360 for Physicians offers invaluable knowledge and resources aimed at advancing your expertise in this dynamic field. Expand your professional repertoire and elevate your practice with this indispensable guide.
