[Manual of Splinting and Casting 2nd Edition](#)

"Manual of Splinting and Casting, 2nd Edition," authored by Dr. R. A. S. Poon, is an essential resource for healthcare professionals seeking a comprehensive guide to immobilization techniques. Published by Nova Science Publishers, this updated edition delves into the latest advancements and methodologies in splinting and casting, ensuring that practitioners are equipped with the most current knowledge and techniques. With its clear, step-by-step instructions and rich illustrations, this manual provides invaluable support for physical therapists, occupational therapists, and other allied health professionals. It covers a broad spectrum of applications, from simple fractures to complex injuries, making it a versatile tool for both training and practical use. The book emphasizes the importance of patient care and safety, guiding readers through best practices in application techniques, material selection, and post-application care. Enhanced with case studies and clinical insights, the "Manual of Splinting and Casting" addresses common challenges and troubleshooting strategies, ensuring practitioners are well-prepared to meet the demands of their work. The ISBN for this indispensable text is 978-1-53616-145-8, making it easy to locate in libraries or online. Whether you're a seasoned professional looking to refine your skills or a student aiming to build a solid foundation in orthopedics, this manual is a must-have addition to your library. Equip yourself with the knowledge and confidence to enhance patient outcomes through effective splinting and casting procedures, and join the ranks of informed practitioners who prioritize excellence in care.
