[DiSaia and Creasman Clinical Gynecologic Oncology 10th Edition](#)

DiSaia and Creasman Clinical Gynecologic Oncology, 10th Edition, authored by Richard S. DiSaia and William T. Creasman, is an essential resource for healthcare professionals specializing in women's reproductive health. Published by Elsevier, this comprehensive guide, ISBN 978-0323357620, integrates the latest advances in the field of gynecologic oncology, presenting current diagnostic and therapeutic strategies for managing various cancers affecting women, including cervical, ovarian, uterine, and vulvar cancers. This edition is meticulously updated, reflecting the most recent research findings and clinical practices, ensuring that readers are equipped with the knowledge necessary to provide optimal care to patients. It features in-depth discussions on the pathophysiology of gynecologic tumors, state-of-the-art imaging techniques, and the latest surgical modalities, alongside insights into chemotherapy and radiation protocols. Enhanced with high-quality illustrations and clinical photographs, the book facilitates a deeper understanding of complex concepts and practices. The authors also emphasize important topics such as genetic counseling, survivorship, and palliative care, making it a well-rounded reference for both seasoned practitioners and trainees alike. With its focus on evidence-based medicine and a patient-centered approach, this text is an invaluable guide in the fast-evolving landscape of gynecologic oncology. DiSaia and Creasman Clinical Gynecologic Oncology, 10th Edition, stands out as a cornerstone reference for anyone committed to advancing their expertise and improving patient outcomes in the field of gynecologic cancer care. Whether you're a clinician, researcher, or educator, this book is a must-have addition to your medical library.
