[Hair Transplant 360 for Physicians 2nd Edition + Video](#)

"Hair Transplant 360 for Physicians, 2nd Edition, is an essential guide for medical professionals delving into the intricate world of hair restoration. Authored by Dr. John P. Cole, a renowned leader in hair transplant surgery, this comprehensive resource combines cutting-edge techniques with practical insights drawn from years of clinical experience. Published by Cole Hair Transplant Group, the book addresses the latest advancements in hair transplantation, focusing on both FUE (Follicular Unit Extraction) and FUT (Follicular Unit Transplantation) methods, making it invaluable for physicians looking to enhance their skill set in this dynamic field. This second edition is enriched with a companion video that provides visual demonstrations of surgical procedures, ensuring that readers not only grasp theoretical concepts but also see firsthand the application of techniques in real scenarios. With an emphasis on patient care and the artistic aspects of hair restoration, this book is designed to help physicians improve their outcomes and achieve natural-looking results. The ISBN for Hair Transplant 360 for Physicians, 2nd Edition is 978-1-7332245-5-5, making it easy to locate this crucial resource for your library. Whether you are a seasoned practitioner or new to the field, this book will equip you with the knowledge and confidence needed to become a successful hair restoration specialist in today's competitive market. With valuable insights on patient consultation, selection, and post-operative care, Dr. Cole's work is a must-have for any physician seeking to elevate their practice and provide the highest standard of care in hair transplantation."
