[Putterman's Cosmetic Oculoplastic Surgery 4th Edition + Video](#)

"Putterman's Cosmetic Oculoplastic Surgery, 4th Edition + Video," authored by the esteemed Dr. David E. Putterman, is a definitive resource for ophthalmic and oculoplastic surgeons aiming to enhance their knowledge and skills in cosmetic procedures. Published by Elsevier and bearing the ISBN 978-0323357620, this comprehensive guide delves into the intricate world of cosmetic oculoplastic surgery, providing a detailed exploration of advanced techniques, innovative approaches, and critical insights into patient management. This edition stands out with its integration of high-quality videos that accompany the text, offering readers a dynamic learning experience that bridges theory and practice. Dr. Putterman's extensive expertise is evident throughout the book, which includes rich illustrations, step-by-step surgical techniques, and key discussions on aesthetic considerations that are essential for optimal outcomes. Each chapter meticulously covers various procedures, from blepharoplasty to facial rejuvenation, ensuring that both novice and experienced practitioners can benefit from the clear, concise explanations and actionable advice. This edition also emphasizes the importance of understanding anatomy and the art of subtle enhancement to achieve natural results that elevate patient satisfaction. The inclusion of contemporary research and evidence-based practices serves to reinforce the book's credibility as a vital tool for medical professionals seeking to stay ahead in this highly specialized field. Whether used as a primary text or a reference guide, "Putterman's Cosmetic Oculoplastic Surgery" remains an indispensable asset for anyone committed to mastering cosmetic oculoplastic techniques and advancing their surgical artistry in today's competitive landscape.
