[Cardio-Oncology Practice Manual: A Companion to Braunwald's Heart Disease 1st Edition](#)

The "Cardio-Oncology Practice Manual: A Companion to Braunwald's Heart Disease" is an essential resource for healthcare professionals navigating the intersection of cardiovascular care and oncology. Authored by the esteemed Dr. Louis R. Pucillo, this first edition, published by Elsevier, offers a comprehensive guide that addresses the unique challenges faced by clinicians treating cancer patients at risk for heart disease. With a focus on evidence-based strategies, this manual delves into the latest research and clinical guidelines, providing practical insights into the prevention, diagnosis, and management of cardiovascular complications arising from cancer therapies. The book features detailed discussions on topics such as chemotherapy-induced cardiotoxicity, radiation-related heart disease, and the role of multimodal imaging in patient assessment. At its core, this manual serves as a vital companion to the renowned "Braunwald's Heart Disease," enriching the understanding of cardio-oncology through its targeted approach. The inclusion of case studies, clinical algorithms, and expert commentary enhances its utility for both seasoned practitioners and trainees alike. Whether you are a cardiologist, oncologist, or a healthcare provider involved in the care of patients with cancer, this text will equip you with the knowledge and tools necessary to deliver optimal cardiovascular care. With an ISBN of 978-0-323-70465-4, the "Cardio-Oncology Practice Manual" is a must-have addition to your medical library, offering practical guidance that is critical for improving patient outcomes in this evolving field of medicine.
