[Local Flaps in Facial Reconstruction 4th Edition + Video](#)

"Local Flaps in Facial Reconstruction, 4th Edition + Video" is an essential resource for plastic surgeons and medical professionals focusing on facial reconstruction, authored by the renowned expert Dr. A. S. K. K. T. F. N. J. K. V. A. C. V. S. The book, published by Thieme Medical Publishers, provides a comprehensive and insightful exploration of the techniques and principles involved in the use of local flaps for facial defects. With a unique approach that combines detailed surgical instructions with high-quality visual aids and video demonstrations, the fourth edition enhances the reader's understanding and practical skills in this critical aspect of reconstructive surgery. Throughout its pages, the reader will find thorough discussions on flap selection, design, and execution, supported by clinical scenarios that reflect contemporary practices. The inclusion of cutting-edge video material allows professionals to witness the described procedures in real time, fostering a clearer visualization of techniques and outcomes. The text's organization and clarity make it an invaluable guide for both seasoned surgeons and those in training. With an emphasis on evidence-based practices and patient safety, this edition embodies the latest advancements in the field, ensuring that the reader is well-equipped to handle a variety of facial reconstruction challenges. The meticulous diagrams and before-and-after case studies further enhance the educational value of the book. Ideal for surgical residents, plastic surgeons, and oral and maxillofacial surgeons, "Local Flaps in Facial Reconstruction" stands as a definitive guide that promises to elevate the proficiency of its readers. ISBN: 9783131658814.
